

KITTY-KITTY BANG-BANG

Dreams spark adventure—but only love makes a hero.

LOGLINE

A dreamy housecat's wish for adventure comes true when his toy car takes flight—

But in a dog-ruled world where cats are hunted, he must risk everything to save another and become the hero he's only dreamed of being.

A warm, sunlit living room. A large window with a wooden frame is the focal point, featuring sheer white lace curtains and heavy green curtains tied back. Bright sunlight streams through the window, creating a strong lens flare and casting a large, bright patch of light on the floor. The room is furnished with a white sofa on the left and a white armchair on the right, both adorned with teal and pink cushions. A small, vintage-style television sits on a wooden stand behind the armchair. On the floor in the foreground, there are several colorful children's books and a yellow stuffed animal. The walls are a warm, light brown color, and small framed pictures are visible on either side of the window.

In a quiet home, life was safe... and small.

Catalytic Paws already saw himself as a hero.

Adventure, apparently, starts at full speed.

But one night... something changed.

And suddenly... the world wasn't so small anymore.

But not every world welcomes dreamers.

And somewhere in that world... he finally found her.

But in this world... being found meant danger.

Not all dangers were particularly... daunting.

For the first time... he truly was a hero
