

KITTY-KITTY BANG-BANG

Dreams spark adventure—but only love makes a hero.

LOGLINE

What if your toy car could fly?

A dreamy housecat's wish for adventure comes true when his toy car takes flight—

But in a dog-ruled world where cats are hunted, he must risk everything to save another and become the hero he's only dreamed of being.

A warm, sunlit living room. A large window with a wooden frame is the focal point, featuring sheer white lace curtains and heavy green curtains tied back. Bright sunlight streams through the window, creating a warm glow and casting shadows on the floor. In the foreground, a white sofa with pink and green cushions is visible on both sides. A small wooden side table is on the left. On the right, a small vintage television sits on a wooden stand. The floor is light-colored wood, and a small rug is partially visible. The overall atmosphere is peaceful and nostalgic.

In a quiet home, life was safe... and small.

Catalytic Paws already saw himself as a hero.

Adventure, apparently, starts at full speed.

But one night... something changed.

And suddenly... the world wasn't so small anymore.

But not every world welcomes dreamers.

And somewhere in that world... he found her.

But in this world... being found meant danger.

Not all dangers were particularly... daunting.

And for the first time... he truly was a hero
